

The Cleanfix logo is located in the top right corner of the image. It consists of the word "cleanfix" in a bold, blue, sans-serif font, with a registered trademark symbol (®) to the upper right of the "x". The logo is enclosed within a white rounded rectangle with a blue border.

**cleanfix®**

**Pallet splinters, packaging residues or industrial dust?**

# **KEMARO 900**

The Kemaro 900 is the world's first industrial dry cleaning robot with integrated dust extraction for large areas and coarse dirt. The sweeping robot orients itself autonomously in the rooms and cleans the areas efficiently around the clock. Thanks to its flat design of machine body, it also cleans optimally under machines and equipment.

**Clean, cleaner, Cleanfix**

# KEMARO 900

The Kemaro can be easily transported and used in several buildings or rooms. With the help of sophisticated algorithms and artificial intelligence, the robot can clean very large industrial areas. No additional installations are required to operate the robotic sweeper. The intelligent navigation reacts to changing environments without orientation aids or pre-programming.

Cleans even coarse dirt

Area demarcation with guide cone

Cleaning in the pallet warehouse

## Kemaro 900 - Your choice

	Remote	Robot Eco	Robot Smart
Sweeper with manual charger, no laser, no sensors	✓		
Two disc brushes and one cylindrical sweeping brush	✓	✓	✓
Remote controller	✓	✓	✓
Lithium-ion battery	✓	✓	✓
Docking station		✓	✓
Programmable cleaning times		✓	✓
Plug and Play Mode		✓	✓
Random and wall cleaning		✓	✓
Flexible area delimitation			✓
Virtual exclusion zone / virtual walls			✓
Programmable cleaning zones			✓
Higher cleaning performance thanks to intelligent cleaning			✓
Upgrade to Robot Smart possible		✓	
Kemaro cloud - as option		✓	
Kemaro cloud - must to have for smart functions			✓

## Kemaro cloud (annual fee)

Remote maintenance fast and cost-saving
Automated Software update from remote
Online cleaning report with map drawing
Information by Email (status, errors and Robot position)

## Technical data

Working width	90 cm
Running time max.	up to 5 h
Battery	Lithium-Ion / 36 V
Charging time	2.5 h
Cleaning speed	0.7 m/s
Ramp slope max.	12%
Cleaning capacity	1'000 m <sup>2</sup> /h
Dirt tank capacity	35 l
Weight incl. batteries	32 kg
Dimensions L / W / H	
Robot Eco and Smart	79 x 72 x 35 cm
Remote	79 x 72 x 30 cm
